Ready September 15th to November 15th.

Our Bulbs this season are of the finest quality available and will please the most exacting. Varieties marked with an (f) as Pride of Haarlem (f) are especially recommended for forcing in pots, pans or flats. Use larger sizes only.

For beds and borders large bulbs will be found superior to lighter grades and you can build a fine reputation with Hunter's Tulips as your customers will give you repeat orders. Also **you can realize better prices because the quality is of the best.**

Smaller sizes are recommended only for out-door planting and growing on.

We are listing only the late May flowering types which bloom at about the same time and are equally good for cutting or landscape planting. Sell bulbs to your customers this fall and make a planting for your own cutting next spring. Two profit-taking periods if you have sufficient stocks.

Mention second choice in ordering to avoid delay.
